News from your Corporate Services Provider

Dear Valued Clients,

The beginning of March marked the launch of new aid schemes, the Business Enhance Grant Schemes. These schemes aim to support small and medium-sized enterprises (SMEs) in enhancing their operations, fostering innovation, and promoting sustainable growth. They provide co-financing for projects that improve competitiveness, encourage digitalisation, and facilitate internationalisation efforts.

Eligible businesses can apply for funding to cover expenses related to process improvements, technology adoption, market development, and other strategic initiatives. The schemes are designed to bolster the local economy by empowering SMEs to adapt to evolving market demands and expand their reach. Of particular interest to you, as our clients, are:

- SME Enhance
- Digitalise your SME
- Business Reports for SMEs
- Digital your large Business
- Digitalise your Micro Business

For detailed information on eligibility criteria, application procedures, and specific funding opportunities, please get in touch with our team. We will be pleased to identify suitable grants for your business, handle all preparatory work including managing all necessary documentation and application procedure.
